04. — Sponsorship Opportunity

Jonathan Capehart, The Washington Post, and Eric Holder, 82nd Attorney General of the United States, at Out Leadership's 2017 U.S. Summit

We work closely with all our summit sponsors to create agendas and conversation starters important to them, providing speaking roles and prominent visibility for their senior leadership.

An Out Leadership sponsorship creates a ripple effect across organizations and through to their customers, not only helping our sponsors increase their visibility among clients, but also allowing them to reach LGBT+ and ally employees at all levels of the company.

Sponsors receive additional seating at the event, as well as prominent branding on all event materials — with numerous opportunities to enhance their outreach across the Out Leadership member network and their own global presence.

Return on Equality® is a registered trademark of Out Leadership
